

**NOTICE OF ENVIRONMENTAL ASSESSMENT
AND FINDING OF NO SIGNIFICANT IMPACT**

For the Falcon Field Airport Development of Davcon/Mesa Hangar

NOTICE IS HEREBY GIVEN that the Federal Aviation Administration (FAA) has approved a Final Environmental Assessment (EA) and a Finding of No Significant Impact (FONSI) for the proposed Davcon/Mesa Hangar project at the Falcon Field Airport (FFZ) in Mesa, AZ. The purpose of this notice is to announce the availability of the documents for review.

The City of Mesa, Arizona, owner and operator of the Falcon Field Airport, has signed a Master Tenant Lease with a private developer who proposes to construct a hangar development area commonly referred to as the Davcon/Mesa Hangar Development. The proposed project would develop approximately 23 acres located in the northwest quadrant of the Airport. The Development would include the construction of aircraft hangars, ancillary office space, and potential aircraft manufacturing space.

The Final EA and FONSI found that the project is consistent with existing environmental policies and objectives as set forth in the National Environmental Policy Act of 1969 and will not significantly affect the quality of the human environment.

In accordance with current Council on Environmental Quality regulations, copies of the FONSI and Final EA may be viewed electronically at <https://www.falconfieldairport.com/about-us/news-room> or viewed at the following locations:
